

## Agenda

### Seminar: Polish Contribution to the EU Raw Materials Initiative

#### 6 November 2017, Brussels

Marivaux Hotel & Seminar Centre (Boulevard Adolphe Maxlaan 98 B-1000 Brussels)

**The meeting will be held in English.**

13.00 – 14:00 Lunch and Registration

14.00 - 14.15 Opening of the Seminar

#### **Beata Staszków, CEO and President of the Board, Employers' Organization of Polish Copper**

14.15 - 14.45 European Commission: Raw Materials Initiative, European Innovation Partnership on Raw Materials, programmes for mining and minerals industry.

#### **Gwenole Cozigou, Director General-Industrial Transformation and Advanced Value Chains, DG Internal Market, Industry, Entrepreneurship and SMEs, European Commission**

14.45 - 15.15 Approach of KGHM towards EU sustainability and raw materials initiatives

#### **Oskar Filipowski, Director of Enterprise Risk Management, Compliance and Business Continuity Department, KGHM Polska Miedz**

**KGHM Polska Miedź SA** – KGHM is a company with over 50 years of experience, with its own resource base (4th largest in the world) and high competence in underground and opencast mining of copper ore deposits. KGHM will present information on their approach towards EU sustainability and raw materials initiatives. The company will show their efforts to stay competitive, while reducing their environmental impact. <http://kghm.com/en>

15.15 - 15.30 Coffee break

15.30 - 17.00 Presentation of innovative solutions of select metal mining and technology companies (including films presenting companies participating in the seminar)

- **Robert Kozłowski, Mining Business Development Director, PeBeKa S.A.** – PeBeKa S.A. is biggest Polish mining development company. In its 57 years history it sunk more than 30 deep shafts, did hundreds kilometers of undergrounds drifts and chambers as well as many tunnel and civil engineering projects. All shafts in Polish copper basin were sunk with ground freezing method down to 700 meters. It makes PeBeKa S.A. world leader in this technology. The company offers a full range of service to mining investors and carries out geological exploratory drills for deposit identification and other targets as well. <http://pebeka.com.pl/en>
- **Marek Walczuk, Senior Sales Specialist, Trade Department, KGHM ZANAM S.A.** – KGHM ZANAM S.A. is one of the largest manufacturers of machinery and equipment for mining sector. The company also produces equipment applied in reloading and transportation systems, quarrying and open-pit mines. Moreover KGHM ZANAM S.A. is significant producer of cast-steel and cast-iron castings. <http://www.kghmzanam.com/index.php/en/>

### **Employers' Organization of Polish Copper**

Chopina 2, 59-300 Lubin

Phone: 004876/ 847 85 85; e-mail: [sekretariat@pracodawcy.pl](mailto:sekretariat@pracodawcy.pl), [www.pracodawcy.pl](http://www.pracodawcy.pl)

NIP: 692-11-70-332, Regon: 390437022, KRS: 0000126828

15.30 - 17.00 Presentation of innovative solutions of select metal mining and technology companies (including films presenting companies participating in the seminar)

- **Elżbieta Błotny, Manager, Marketing, Strategic Analysis and Owner Supervision, NITROERG S.A.** – A European leader and the largest Polish manufacturer and supplier of explosives and initiating systems for civil use, including drilling and blasting services for engineering works and underground mining of metal ores and coal, open pits and quarries. It is also a major manufacturer of diesel fuel additives that increase the fuel cetane rating and improve the working parameters of engines. NITROERG S.A. is one of the few companies in this sector offering a full range of the products needed for blasting operations in different conditions: a critical factor determining its independence and market competitiveness. <http://www.nitroerg.pl/en>
- **Jerzy Nadolny, Chairman of the Board/General Manager, Mine Master Ltd.** – Innovative and tailor-made solutions for drilling and rock excavation in underground mining – how small players can be successful on a very competitive and challenging market of OEM. Mr Jerzy Nadolny, CEO of Mine Master will present how approaching individual clients' needs changes the rules of the game and accelerates new mining technology development and innovation. <http://www.minemaster.eu/>
- **Marcin Kret, Vice President, Kret i S-ka Tadeusz Kret** – A family owned business designing and implementing hydraulic power packs for widespread use in hydraulic systems of industrial machines and devices as generators of fluid flow steered by separated manifold blocks. The paper presents the development of a small family-run engineering company and presents their co-operation with large (global) companies. 17.00 – 17.30 How can a sustainable mining and minerals sector contribute to economic and industrial growth? – discussion

**Mark Rachvides, President of EUROMINES**

Euromines is the recognised representative of the European metals and minerals mining industry. The association's main objective is to promote the industry and to maintain its relations with European institutions at all levels. Euromines provides services to its members with regard to EU policy and serves as a network for cooperation and for the exchange of information throughout the sector within Europe. The association also fosters contacts with the mining community throughout the world.

17.30 Closing remarks
