Title of initiative: Public consultation regarding the Draft Report on Minimum Safeguards of European Sustainability Reporting Standards ("ESRS") Exposure Drafts ("ESRS EDs") developed by the European Financial Reporting Advisory Group ("EFRAG") PTF-ESRS - PLATFORM ON SUSTAINABLE FINANCE

Subject: Support of Polish Chamber of Commerce position in Public consultation regarding the Platform for Sustainable Finance's report on minimum safeguards (MS)

Dear Sirs,

Polish Copper Employers' Association – Związek Pracodawców Polska Miedź (ZPPM) fully supports the position paper prepared by the Members of the ESG Committee at the Polish Chamber of Commerce ("PCC") regarding the Platform for Sustainable Finance's report on minimum safeguards (MSs). This position paper is submitted as a part of the online survey completed by the Members of the ESG Committee.

In general, we welcome the ESRS MSs and appreciate all the hard work that has been put into their development. We appreciate the positive impact this may have on reaching the sustainability aims in general and in particular the climate change related reductions including the Net Zero target.

We understand that the goals of ESRS MSs are important. However, they should not be achieved at the expense of entrepreneurs. Therefore, we strongly believe that if companies are required to report their ESG impact under ESRS, then entrepreneurs should receive a support package in the form of access to free tools, training, external consulting schemes, subsidizing the preparation of strategies in accordance with EU requirements and subsidizing the whole adaptation processes.

Yours Faithfully,

Beata Staszków
