ANNEX

ANNEX

to the

Commission Delegated Regulation (EU) .../...

on the establishment of threshold levels and classes for permanent anchor devices and safety hooks

ANNEX

Threshold levels and classes of performance of permanent anchor devices and safety hooks according to EN 17235:2024

Table 1

Kit A - Anchor kit incorporating a single anchor device

Essential characteristic	Threshold level	Classes of performance ⁽¹⁾
Mechanical resistance – Dynamic test ⁽¹⁾	≥ 9.0 kN	1
		2
⁽¹⁾ The class of performance number shall be followed by the acronym of the applicable mock-ups		

Kit B - Anchor kit incorporating a safety hook

Essential characteristic	Threshold level	Classes of performance ⁽¹⁾
Mechanical resistance – Hook base test	≤ 5 mm	-
Mechanical resistance – Dynamic test ⁽¹⁾	≥ 9.0 kN	1
		2
⁽¹⁾ The class of performance number shall be followed by the acronym of the applicable mock-ups		

Kit C - Anchor kit incorporating a horizontal wire anchor line

Essential characteristic	Threshold level	Classes of performance ⁽¹⁾
Mechanical resistance – Dynamic test ⁽¹⁾	≥ 9.0 kN	1
		2
		3
		4
⁽¹⁾ The class of performance number shall be followed by the acronym of the applicable mock-ups		

Kit D - Anchor kit incorporating a horizontal rail anchor line

Essential characteristic	Threshold level	Classes of performance ⁽¹⁾
Mechanical resistance – Dynamic test ⁽¹⁾	≥ 9.0 kN	1
		2

		3
		4
⁽¹⁾ The class of performance number shall be followed by the acronym of the applicable mock-ups
