| 1               | Message ID                                                     | The field indicates the identification code of the inside information report.                                                                                                                                                                      |
| 2               | Event status                                                   | The field indicates the position of the inside information report and its relevance for trading decisions.                                                                                                                                         |
| 3               | Type of information                                            | The field indicates the type of inside information being disclosed.                                                                                                                                                                                |
| 4               | Type of unavailability                                         | The field indicates whether the unavailability event was planned or unplanned.                                                                                                                                                                     |
| 5               | Type of event                                                  | The field indicates the type of the subject or the assets/units affected by the unavailability.                                                                                                                                                    |
| 6               | Date and time of publication                                   | The field indicates the date and time when the inside information report was made publicly available.                                                                                                                                              |
| 7               | Date and time of the beginning of event                        | The field indicates the estimated/actual starting date and time of the relevant event.                                                                                                                                                             |
| 8               | Date and time of the end of event                              | The field indicates the estimated/actual ending date and time of the relevant event.                                                                                                                                                               |
| 9               | Unit of measurement                                            | The field indicates the unit of measure in which the capacity is expressed.                                                                                                                                                                        |
| 10              | Unavailable capacity                                           | The field indicates the unavailable capacity of the affected asset or unit due to the reported event.                                                                                                                                              |
| 11              | Available capacity                                             | The field indicates the remaining available capacity of the affected asset or unit.                                                                                                                                                                |
| 12              | Installed capacity (applicable for electricity unavailability) | The field indicates the nominal generating, transmission, or consumption capacity of the affected asset or unit.                                                                                                                                   |
| 13              | Technical capacity (applicable for gas unavailability)         | The field indicates the maximum net sustained (flow) capacity that the affected asset or unit can produce, transmit, store, or consume continuously throughout a long period of operation in normal conditions, under relevant security standards. |

|    |                                 |                                                                                                                                                                                                      |
|----|---------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 14 | Reason for the unavailability   | The field indicates the explanation of the reason(s) behind the unavailability event.                                                                                                                |
| 15 | Remarks                         | The field indicates any other information that facilitates the full understanding of the potential impact of the event on wholesale energy prices.                                                   |
| 16 | Type of fuel                    | The field indicates the classification of electricity production types (applicable to electricity unavailability events).                                                                            |
| 17 | Bidding or balancing zone       | The field identifies the bidding or balancing zone(s) where the affected asset or unit is located or feeds into.                                                                                     |
| 18 | Affected asset or unit          | The field identifies the official name of the generation or production unit, consumption unit, transmission, or other – gas or electricity – asset.                                                  |
| 19 | Affected asset or unit EIC code | The field indicates the applicable unique identifier (EIC code) of the affected asset or unit.                                                                                                       |
| 20 | Market participant              | The field indicates the official name of the market participant(s) or authority with obligations regarding the specific event under Article 4 or 3(4) of Regulation (EU) No 1227/2011, respectively. |
| 21 | Market participant ID           | The field identifies the market participant(s) or authority indicated in field 20 by using a unique code.                                                                                            |
| 22 | Inside Information Platform ID  | The field identifies the inside information platform by using a unique code.                                                                                                                         |
| 23 | Direction                       | The field indicates whether the outage is at the entry or exit direction in relation to a specified balancing zone, or from which of the indicated bidding zones the electricity flows.              |
| 24 | Curve type                      | The field indicates the type of the curve that is being provided for intervals in question, such as variable sized block or fixed sized block or point.                                              |
| 25 | Interval start                  | The field indicates the estimated/actual starting date and time of the sub-interval of relevant event.                                                                                               |
| 26 | Interval stop                   | The field indicates the estimated/actual ending date and time of the sub-interval of relevant event.                                                                                                 |

|    |            |                                                                                                                 |
|----|------------|-----------------------------------------------------------------------------------------------------------------|
| 27 | Resolution | The field indicates the resolution defining the number of periods that the time interval is divided (ISO 8601). |
| 28 | Position   | The field indicates the relative position of a period within an interval.                                       |
