to the

COMMISSION IMPLEMENTING REGULATION (EU) .../...

on an interoperable, cross-border identification and authentication mechanism for natural persons, health professionals and healthcare providers for the purposes of the cross-border exchange of personal electronic health data

ANNEX

TECHNICAL SPECIFICATIONS FOR HEALTH PROFESSIONAL AND HEALTHCARE PROVIDER IDENTIFICATION DATA REFERRED TO IN ARTICLE 7

Table 1

Mandatory data for the health professional

Data identifier	Definition
family_name	The hereditary surname(s) of the health professional.
given_name	First name(s), including middle name(s) where applicable, of the health professional.
date_of_birth	The point in time on which the health professional was born.
country_code	Alpha-2 country code as specified in ISO 3166-1, representing the Member State that issued the health professional identification data.
hp_identifier	A health professional identifier assigned to the health professional that is unique among all health professional identifiers issued in the Member State where the health professional is registered.
issuing_authority_name	The name of the agency responsible for issuing the health professional identifier.
hp_professional_role	The professional role of the health professional.
healthcare_provider_identifier	An identifier of the healthcare provider organisation or healthcare facility where the health professional is providing treatment. This identifier is unique in the Member State that issued it.

Table 2

Mandatory data for the healthcare provider

Data identifier	Definition
healthcare_provider_identifier	An identifier of the healthcare provider organisation or healthcare facility where the health professional is providing the treatment. This identifier is unique in the Member State that issued it.
issuing_authority_name	The name of the agency responsible for issuing the healthcare provider identifier.
healthcare_provider_name	Name of the healthcare provider.
healthcare_provider_address	Official registered full address of the healthcare provider.
