**COMMISSION DELEGATED REGULATION (EU) .../...**

**of **XXX****

**supplementing Regulation (EU) 2019/1700 of the European Parliament and of the Council by specifying the number and titles of the variables for the use of information and communication technologies domain for the reference year 2027**

(Text with EEA relevance)

## **EXPLANATORY MEMORANDUM**

### **1. CONTEXT OF THE DELEGATED ACT**

Article 6 of Regulation (EU) 2019/1700 of the European Parliament and Council establishing a common framework for European statistics relating to persons and households, based on data at individual level collected from samples<sup>1</sup>, empowers the Commission to adopt delegated acts specifying the number of variables and the title of variables of the different data sets. When adopting the delegated act, the number of variables is not to exceed, by more than 5%, the number of variables for each domain of those already required, on a mandatory basis, by the Commission (Eurostat) on 3 November 2019.

This Delegated Regulation covers the number and titles of variables for the dataset in the domain use of information and communication technologies for the reference year 2027.

### **2. CONSULTATIONS PRIOR TO THE ADOPTION OF THE ACT**

The Commission has carried out appropriate consultations as part of the preparation of this delegated act. No specific concerns were raised during the consultations.

The Commission consulted national experts at the meeting of the expert group ‘Information Society Statistics’ held on 4–5 February 2026.

The Expert Group ‘National Statistical Institutes of the European Statistical System’ was also consulted.

Both the European Parliament and the Council were duly informed.

### **3. LEGAL ELEMENTS OF THE DELEGATED ACT**

The objective of this delegated Regulation is to adopt the number and titles of the variables for the dataset in the use of information and communication technologies domain for the reference year 2027, according to Article 6 of Regulation (EU) 2019/1700.

The number of collected variables meets the requirement of Article 6(2) of Regulation (EU) 2019/1700, which set the maximum number of mandatory variables from reference year 2021 onwards. Only the collected variables impact the burden. Variables are reassessed and rotated between reference years to cover policy needs while limiting reporting burden.

The delegated act has no implications for the EU budget.

The delegated act concerns a matter relating to the European Economic Area (EEA) and its application should therefore extend to the EEA.
